Having been sequained with Mr. Sparks for many years, I am qualified to any that he has no sympathy whatever with the Republican party, but was elected as a National American.

Like all others arrogating to themselves this title of "National," the K. N. Mayor of Wilmington "has no sympathy whatever with the Republican party," but a great deal with Sham Democracy.

WAITING TO HEAR PHON HIM .- The Madison Patriot, a democratic paper, which has thus far declined to run up the name of Mr. CROSS for Governor, thus explains, in answer to sundry bitter invectives from the Barstow press, the reason of its delay:

"We, the undersigned, naturalized citizens of Cleveland, have heretofore cheerfully supported the Democratic ticket, from the fact that we were innocent enough to suppose the party was libered in its views, and opposed to Know Nothingism; but from recent developments, we are sausfied the party only wishes to use us merely as "hewers of wood," and "drawers of water," treating us kindly before election, and kicking us afterward. We therefore piedge ourselves to absain from supporting the Democratic ticket at the coming election, for the following reasons:

3d. A majority of our city officers, elected as Democrats, belong to the order.

We have heretefore, by our votes, built up the Democratic party, and in return for our suffrages, we have received nothing but contumely end insult.

We leave them, therefore, in the language of Harrison, to "do their own voting and their own fighting."

Private dispatches were received in this city, yesterday, stating that S. J. Holley, of Oswego, an extensive produce dealer, had suspended. Those familiar with the political history of this State need not be told that the great element of the Democratic strength has been the vote of our German fellow citizens. They constitute very much the largest portion of the foreign-born population of Wisconsin, and for many years voted in solid column for the Democratic candidates Deprived of the German vote these candidates would never have had any chance of success, and the party itself would be in the leanest possible minority. Common gratitude, therefore, for such powerful and unvarying support; should have taught the leaders of the party to treat our German fellow-citizens with some small degree consideration. Yet at the late Barstow Stare Convention they met with little else than indiggity and insult. With remarkable unanimity they presented to that Convention an unexceptionable candidate for Governor; by birth, indeed, German, but an American by adoption, and for some fifteen years a resident of this city and State. He had served the people in various public capacities, and always served them faithfully and well. He had been, too, a most active and influential worker in the Democratic ranks, and had probably contributed as much to the long-continued ascendancy of the Democratic

But in the eyes of the Barstow Convention there were two serious objections to Dr. HEGH. SCHMAN: first, he was a German, and secondly, he was not a Barstow man. The cry went round the Convention, " No German at the head of our ticket," and the cry availed to defeat the Doctor, the' backed by three-fourths of the Democratic votes in the strongest Democratic County in the State. And then, as a compensation for this wrong, the Barstow men proceeded to put on the ticket one of their own trusted agents, CARL HABICH, for State Treasurer, and coolly invited the Germans to take him in exchange for Dr. HEUBSCHMAN! We need not say how the proposition has been received. The action of the German Demogratic meeting, on Saturday night last, rejecting the Barstow ticket, and especially repudiating the nomination of CARL HARICH, as alike injurious and insulting to them, speaks for itself. They are not to be pacified by any such compromise, and will not soon forget the ingratitade of the party which owes everything to them and pays its debts after this scurvy fashion.

Footprints of the Demagogue.

The News, which has announced, as sound Democratic doctrine, the humane and Christian sentiment that any "attempt to elevate a debased race (the colored people) is in striking opposition to common sense and Christian daty," makes this accusation against the Muss Convention which met in our city on the 17th of June last:

By that Convention it was declared that the intelligent Foreigner, who from persecution or any other cause, is induced to lorsako father.

This, of course, is not only utterly false, but put ing the prejudices of adopted citizens. Such as shallow trick, cannot, however, impose upon then, and will only react upon the demagogue who resorts to it.

regard to the Republican platform. We quote its exact language: This is the dectrine of the Republicans. No

This is the dectrine of the Republicans. No only do they assert that the native American is no better than runaway slaves from the South or imported black ragabonds from Canadas—but they go further and declare that these negroes are superior to the white and cultivated Foreigners in our midst! We snow this statement is startling; but it is the truth. Here are the ways work of the resolution— "WE HERE PROCLAIM, that in the absence of

positive enactments to the contrary, bilding then american soil constituted the result of our titles to American citizenship."

The News pays a poor compliment to the in telligence of our adopted citizens, when it insults them by such paipable falsehoods and clannish appeals. The truth contained in the extract from the Republican platform is incontestible.-What better title to "American citizenship"; there, or can there be, than "high upon American soil?" But that this is not, in the opinion of the Republicans, the only "title," is suificiently shown by the following resolutions which the News is careful to suppress: Resolved further, That true advocates of free

Repudiation of the Barstow Ticket. We gave yesterday a brief account of the eignificant demonstration, on Saturday evening last, among the German Democracy of this city.-The following preamble and resolutions were adopted by the meeting:

In Mr. Buchanau's letter to the Connecticut lergymen, which we noticed yesterday, there is a portion which deserves further attention, as showing how fully the President is committed to the most ultra doctrines of the Slavery Propagendiets. It is this:

gendiets. It is this:

The Congress of the United States had most wisely declared it to be "the true intent and meaning of this act (the act organizing the Territory) not to legislate sharey into any Territory. State nor to exclude a threation, but to leave, the people thereof perfectly free to form and regulate their domestic institutions in their own way, subject only to the constitution of the United States." This avowforth by the News merely with the hope of rous | al of the President, inust strike with associable ment a gr at many of his supporters in the North, who east their votes for him in good fuith. If such an avowal had been made before the election last fall, not even the frauds in Pennsylvania The News also makes a startling discovery in would have sufficed to carry Mr. Buchanan into Presidential chair.

A Head Off.

Our new U. S. Marshal, Mr. Thomas, faithful o the principle on which he was appointed, to wit: "rotation in office," has made a general sweep among the Deputy Marshals throughout the State. One of the victims of this "rotary movement is Mr. Perros Russell, of Janesville, who does not take his decapitation kindly. His rionds are equally discontented, and four of them, Mosers, Charles S. Jordan, PRTER HAASOE, SOLONON HUTSON and THOMAS M. LYNCH. DUDlish a card in the last Democratic Standard, severely censuring the U.S. Marshal for the removal of Mrs., Russkill. We copy the opening

and closing paragraphs of this manifesto: To our very great surprise and regret, Mr. Ma-jor J. Thomas, the U. S. Marsani for this Dis-trict, har removed from the office of Deputy Marsani, Peyron Russell, of this city. We do not know what were the reasons, or the pretended reasons for such removal. This, however, we ed riagons for such removal. This, nowever, we do know, that Mr. Russell's appointment was asked for by all the leading Democrats of this vicinity, and as far as we can learn his removal was asked for by none.

We have no desire to stir up any difficulty among members of the Democratic purty of this State, but we cannot pass by this exercise of power on the part of a government official, who out expressing our hearty disapprobation of what seems to us tue impropriety of his conduct.

So long as the newly appointed Deputy is fit person for the office, we do not see that the party in Rock County have any right to complain of the change of incumbents. "Rotation in Office" was formally proclaimed and deliberately adopted as Mr. Buchanan's rule of action. "Like Master, like man," Mr. Major J. Thom-AS, as a loyal officer, could do no less than "follow copy." No doubt, too, he, like Mr. Buchas-AN, had "friends to roward and enemies to pun-

JUDGE RANDALL AND THE MAINE LAW,-The News amends its declaration against Judge Ras-DALL by admitting that he introduced the amendment exempting " wine, beer and cider manufactured in this State" from the provisions of the net, but insists that he voted for the law, "the Sentinel to the contrary notwithstanding." The Sentinel never detied that Judge RANDALL 20 voted. He did so in obsdience to what he be" lieved to be the wishes of his constituents; in Gov. Barstow, moved, no doubt, by the same consideration, promised in wilding; before his election, to sign such a law, should the Legislature pass one. The Maine Law, however, is no longer an issue and the only attempt in the last Legislature to bring up the question originated with the Sham Democracy, and was defeated by the Republicans.

Curl Schurz, the Republi an Candi-We find in the Madison Journal, the following incidents in the career of Mr. Schukz, our candidate for Lieutenant Governor:

CARL SCHERZ,-One of our German citizen has furnished us with some outlines of the past career of Mr. Schurz, the Republican nominee for Legutenant Governor. Mr. Schurz anished for Lieutenant Governor. Mr. Schutz anished his studies at the celebrated University of Rom, on the Ribite, in 1848, just, at the communication of the Revolutionary inovements of that year in Gormany. Young and et thusheate, with an ardent sympathy for Republican principles, he halled that movement is the beginning of the jeditanchisement of Europe from hingly and despotic rule. He began to labor for it, as a contributor to the public journals which avowed liberal sentiments. Among others, the Dresdenter Zeitung, then edited by Mr. Lindeman, the present editor of the Zeitung of this city, was resent editor of the Zeilung of this city, was the recipient of his favors. Soon after, he asso-ciated himself with the celebrated German pa-tiot and poet, Professor Klaikel, in the publica-tion of a Republican paper at Bonn. The suc-cesse of the new journal, was the highest evidence of the talent and skill with which it was con-

ducted. In 1849, when the Pressian army invaded the South-West of Germany, Schurz joined the ranks of the revolutionists, and, in the battle of Rastadt, lought as an officer of the staff of the com twenty-three days, the garrison, consisting of 5,000 men, held out against 40,000 assailants. Schurz had no thought but to liberate his friend or to sacrifice his own life in the attempt. Kinkel was closely confined at Naugard, near Berlin The difficulties and perils of the proposed en-terprize might well have shaken the firmest purose and the stoutest heart. Etherz, the proeribed and hunted revolutionist, to reach the down in song nom the day.

Richard of the Lion Heart, he succeeded in making Kinkel aware of his presence by playing lavorite airs upon a flute in the vicinity of his dangeon, and shortly after effected, by means that have never been divulged, lest the account might implicate persons now living in Pruesia, the deliverance of his friend. A lorg and perilous journey remained to be performed in order to reach the Baltic coast. For transchy these fogitives from tyranny succeeded in excaping or misleading the argus-syed police; an i, after four misleading the argusadd a stormy transit in a little schooner across the German ocean, Schurz and his liberated friend trod in safety the hospitable shores of

The Newhall House Festival. 'Konemik," who is the editor of the Green Bay Advocate, in despite of his longings for a farm in the country, bath an appreciation of the "fast and futious" in city life. Witness his discoursings upon the doings at the Newhall House:

MILWAUEER, Aug. 29, '57.

DEAR ADVOCATE:—The Nowball House was opened the other night, and being there, perhaps I ought to write you something about it, you living up there in Green Bay, where nothing is opened but clams and navigation. Here in is opened but clams and navigation. Here in Milwaukee they open railroad routes every week or two, banks every other day, and they will open your purse for you about as fast as any people you ever saw. Weil, they opened the Newhall House Tuesday night, and took the cyster aut of it. At least you would have thought so if you had seen the way that table was ridded when once they had access to it. But that is alread of the story.

This new hotel, which is very properly the pride of Milwaukee, having been completed and furnished and ready for business, the occasion was made one of celebration and rejoicing. A grand benguet was prepared, an immense bail

grand banquet was prepared, an immense grand bringer was prepared, an immense of the room thrown open, and line women and solid men got together in great numbers. It was not confined to those classes either. Women having no claims to beauty, and mor positively frivolous, gave the event their countenance. It is estimated that there were 2,500 people. there. There certainly was an immense gathering, but the broad halls and numberless rooms of the Hozel, and the spacious ball room so accommodated them that there did not seem to be a "jam." Two bands discoursed fine music—one from the lobby of the hotel, and the other in the ball room. tened to the music, and took note of the never-ending stream of people who floated along in all sorts of drosses, with all sorts of faces and ex-

You ought to have seen it. It marched through the crowd leaving a swath behind it as wide as one of Manny's patent Reapers. Or perhaps the general effect night be better expressed by likening it to an elephant and howdah. There, that is all you will hear from me upon that subject. I ought to tell you though that it waltzed divinely. There was a large number of editors there—so many that I will not undertake to give you all their names.—They were the beet looking people present.
